## LISTING RULES IMPLICATIONS

As at the date of this announcement, Ningbo Binrun is an indirect wholly-owned subsidiary of the Company. Binjiang Real Estate is controlled by Mr. Qi Jixiang, one of the controlling Shareholders. Therefore, Binjiang Real Estate is a connected person of the Company under the Listing Rule. Each of Binroung Real Estate, Biyu Real Estate, Bitai Real Estate, Binui Real Estate, Bichang Real Estate, Binang Real Estate, Binrong Real Estate, Biyuang Real Estate, Bixie Real Estate, Binan Real Estate and Binlv Real Estate, is a subsidiary of Binjiang Real Estate and its associate, and is therefore a connected person of the Company under the Listing Rules. Accordingly, the transactions contemplated under the Acquisition Agreements constitute connected transactions for the Company under Chapter 14A of the Listing Rules.

Reference is made to the Company's announcement on connected transactions and continuing connected transactions dated August 16, 2023 in relation to the August 2023 Acquisitions pursuant to which Ningbo Binrun agreed to acquire from certain subsidiaries of Binjiang Real Estate the right to use of car parking spaces. As the Acquisition Agreements, together with the August 2023 Acquisitions, are entered into with companies controlled by Mr. Qi Jixiang within a 12-month period and are similar in nature, they shall be aggregated under Rule 14A.81 of the Listing Rules. As the maximum applicable percentage ratios in respect of the Acquisition Agreements and the August 2023 Acquisitions exceed 0.1% but are less than 5%, the transactions contemplated thereunder are subject to the reporting and announcement requirements but exempt from the circular and independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

## BASIS OF DETERMINATION OF THE CONSIDERATION

The consideration for the right to use of car parking spaces under each of the Acquisition Agreements was determined after a lengthy negotiation between Ningbo Binru and the assignors under each of the Acquisition Agreements. The Company has taken into account the appraised value of the right to use of car parking spaces located in each project as set out in an independent valuation report and the prevailing market prices of car parking spaces in nearby projects for negotiating and the consideration should not be higher than the appraised value. Details of the independent valuation report are set out below:

### (1) Valuation method

The methodology adopted for the preparation of the independent valuation report is the comparison approach. The comparison approach takes into account transactions in the market for similar properties and directly compares the subject properties with comparable properties that have been sold close to the benchmark date of the valuation. Comparable properties of similar location, quality and size are analyzed and adjusted for each property's strengths and weaknesses to arrive at a fair comparison of market values.

The subject properties are underground car parking spaces in residential projects, located in areas with many comparable cases of sale similar to the subject properties (within the same supply and demand circle, with the same use, and in nearby areas), and with active market transactions, and therefore the valuation was conducted using the comparison approach.

### (2) Valuation assumptions

#### *General Assumptions*

The valuation has been made on the assumption that the vendor sells the subject property interests at the market values of the property interests without the benefit of deferred contracts, leasebacks, joint ventures, management agreements or any similar arrangements that could affect the values of the property interests.

The valuation has not taken into account any charges, mortgages or indebtedness owing on any of the property interests or any expenses or taxes that may be incurred

The information provided to the valuer for assessing the market value of the right to use of the subject properties is reliable, and the key components of such information (e.g. location, use, gross floor area, etc.) are also disclosed in the independent valuation report and are complete and correct.

### (3) Selection of comparable properties

In conducting the valuation, the valuer made reference to the comparable properties and selected them on the basis of the following conditions:

- (a) time the comparable properties transacted and listed in the last six months;
- (b) location properties with similar transportation conditions as the subject properties, in the same supply and demand circle or within five kilometers from the subject properties;
- (c) maintenance conditions the comparable properties were maintained in a good state of maintenance; and
- (d) use the comparable properties were used as underground car parking space.

The valuer has analyzed recent sales of similar properties in the market for comparison with the subject properties. The valuer analyzed each of comparable properties by its unit price. The attributes of each of comparable properties were compared to the subject properties and the unit price would be adjusted, if any discrepancy, to arrive at the appropriate unit price for the subject properties. The comparable properties were determined taking into account the timing, location, maintenance conditions and use of the subject properties. Comparable properties are exhaustive in terms of the above selection criteria in the valuation of the subject properties.

## PAYMENT AND COMPLETION

The consideration for the right to use of the car parking spaces under each of the Acquisition Agreements will be financed by the Company's internal resources. There is no deposit under each of the Acquisition Agreements and the consideration shall be payable in cash within 10 days from the date of the respective Acquisition Agreements and the transfer of the corresponding right to use of the car parking spaces shall be completed on the same date upon payment of the consideration.

## INFORMATION ON THE CAR PARKING SPACES

There were no development costs allocated to the relevant car parking spaces, book value or relevant original acquisition cost as the assets were developed by Bironing Real Estate, Biyu Real Estate, Bitai Real Estate, Binhui Real Estate, Binchang Real Estate, Binan Real Estate, Bironing Real Estate, Biyu Real Estate, Bixian Real Estate, Binan Real Estate and Biniv Real Estate.

## REASONS FOR AND BENEFITS OF THE ACQUISITION AGREEMENTS

Development of Yuchaofu Project, Yongtaofu Project, Xingcui Lanting Project, Jiapi Meiyou Project, Qianyu Xiaoting Project, Boyu Huating Project, Cuiyu Huating Project, Yongcuifu Project, Feicui Jiaguan Project, Wocheing Yixiang Project and Chuxili Project were completed and the sales department of Bijiang Real Estate will move out of the locations of the projects. It will be more convenient for the Group, as a provider of ongoing property management services for residential owners of the relevant projects, to take over the assignment and leasing of the right to use of the remaining car parking spaces unsold during the mass sales period.

The Company considers that there will be steady demand for the car parking spaces by the residents of the projects as the ratios between the respective residential units to the Yuchaofu car park spaces, Yongtaofu car park spaces, Xingcui Lanting car park spaces, Jiapi Meiyou car park spaces, Qianyu Xiaoting car park spaces, Boyu Huating car park spaces, Cuiyu Huating car park spaces, Yongcuifu car park spaces, Feicui Jiaguan car park spaces, Wocheing Yixiang car park spaces and Chuxili car park spaces are 1:1.58, 1:1.09, 1:1.11, 1:1.24, 1:1.07, 1:1.02, 1:1.05, 1:1.09, 1:1.084, 1:1.5, 1:1.26, respectively. Based on (i) the floor area, location, positioning and industry trend of the assets for sale; (ii) the expected operating costs (including but not limited to labor costs, material costs and administrative costs) that the Group will incur in providing resale services for such assets; and (iii) the brand effect of Bijiang Real Estate, the rights assumed by the Group under the Acquisition Agreements would provide an opportunity for the Group to monetize the right to use (which includes the right to occupy, assign or rent out) of the car parking spaces of Yuchaofu Project, Yongtaofu Project, Xingcui Lanting Project, Jiapi Meiyou Project, Qianyu Xiaoting Project, Boyu Huating Project, Cuiyu Huating Project, Yongcuifu Project, Feicui Jiaguan Project, Wocheing Yixiang Project and Chuxili Project as well as enable the Group to bring valuable returns to its Shareholders.

The Directors (including the independent non-executive Directors) consider that the terms of the Acquisition Agreements (including the consideration thereunder) are fair and reasonable, and the transactions contemplated thereunder are on normal commercial terms, in the ordinary and usual course of business of the Group and in the interests of the Company and the Shareholders as a whole.

## LISTING RULES IMPLICATIONS

As at the date of this announcement, Ningbo Biaru is an indirect wholly-owned subsidiary of the Company. Bijiang Real Estate is controlled by Mr. Qi Jixiang, one of the controlling Shareholders. Therefore, Bijiang Real Estate is a connected person of the Company under the Listing Rule. Each of Biroung Real Estate, Biyu Real Estate, Bitai Real Estate, Bihui Real Estate, Bichang Real Estate, Binhang Real Estate, Biroing Real Estate, Biyuang Real Estate, Bixian Real Estate, Binhang Real Estate and Biyu Real Estate is a subsidiary of Bijiang Real Estate and its associate, and is therefore a connected person of the Company under the Listing Rules. Accordingly, the transactions contemplated under the Acquisition Agreements constitute connected transactions for the Company under Chapter 14A of the Listing Rules.

Reference is made to the Company's announcement on connected transactions and continuing connected transactions dated August 16, 2023 in relation to the August 2023 Acquisitions pursuant to which Ningbo Biaru agreed to acquire from certain subsidiaries of Bijiang Real Estate the right to use of car parking spaces.
